

FLE Training

Our training courses are developed by the teaching team according to an action-oriented approach based on the descriptors of the European Council's Common European Framework of Reference for Languages (CEFR). The proposed programs take into account the candidates requirements and their initial level, which is verified during the registration process.

In order to assist students with disabilities in accessing all courses, particularly FLE courses, the Université de Picardie Jules Verne has set up a specific and personalized system: <https://www.u-picardie.fr/l-universite/handicap/etudiants/>.
